

Temperature sensor

PT100 1 / 3DIN 5 m

Technical specification:

- Sensor: PT100
- Application: -35 ° C to + 100 ° C
- Temperature resistance: -50 ° C to + 110 ° C
- Cable: 3x0.25 mm², L = 5.000 mm
- Identification: white marking with batch ID
- Diameter: 6 mm
- Material: dirt-repellent, diffusion-tight cable
- VA sleeve: 50 mm pressed
- Protection class: IP67 - rolled
- Packaging: individually packed in PE bags
